5

8th Math Unit 5 - Functions and Volume STAR Cards!

QUESTION	ANSWER										
5a) ☆☆☆ 1) How do we tell if a relationship is a function? 2) Explain if this table is an example of a function. <table><thead><tr><th>X</th><th>Y</th></tr></thead><tbody><tr><td>2</td><td>7</td></tr><tr><td>3</td><td>5</td></tr><tr><td>4</td><td>2</td></tr><tr><td>4</td><td>3</td></tr></tbody></table>	X	Y	2	7	3	5	4	2	4	3	5a) 1) A relationship is a function if each x value has only <u>one</u> y value 2) The table is not a function because the x-value 4 gives you two different y-values (2 and 3).
X	Y										
2	7										
3	5										
4	2										
4	3										
5b) ☆☆☆ 1. Is this graph a function? 2. Explain why.	5b) 1. Yes 2. It is a function because for any value of x there is only one value of y. (It passes the <i>vertical line test</i>.)										

QUESTION	ANSWER																												
5c) ☆☆☆ 1. Explain what a linear graph looks like 2. Explain what a linear table looks like Note: you can sketch or draw an example.	5c) 1.) A linear graph looks like a straight line because it has a constant rate of change  <table><tr><th></th><th>Input = x</th><th>Output = y</th><th></th></tr><tr><td>+1 <</td><td>0</td><td>0</td><td>> +4</td></tr><tr><td>+1 <</td><td>1</td><td>4</td><td>> +4</td></tr><tr><td>+1 <</td><td>2</td><td>8</td><td>> +4</td></tr><tr><td>+1 <</td><td>3</td><td>12</td><td>> +4</td></tr><tr><td>+1 <</td><td>4</td><td>16</td><td>> +4</td></tr></table> 2.)A linear table has a constant rate of change (slope). <tr><td> 5d) ☆☆☆ 1. Where are they moving fastest? Explain? 2. Where are they moving, but going slow? Explain? 3. Where are they stopped?  </td><td> 5d) 1) Interval A is the fastest because the slope is steepest there 2) Interval C is the slowest because the slope is less steep there 3) Interval B is stopped because the slope is flat <tr><td> 5e) ☆☆☆ 1) What is volume? 2) How can you find the volume of ANY cylinder or prism? (like these)  </td><td> 5e) 1)<u>Volume</u> is the number of cubic units needed to fill a 3D shape 2) Find the area of the base and multiply it by the height. </td></tr></td></tr>		Input = x	Output = y		+1 <	0	0	> +4	+1 <	1	4	> +4	+1 <	2	8	> +4	+1 <	3	12	> +4	+1 <	4	16	> +4	5d) ☆☆☆ 1. Where are they moving fastest? Explain? 2. Where are they moving, but going slow? Explain? 3. Where are they stopped? 	5d) 1) Interval A is the fastest because the slope is steepest there 2) Interval C is the slowest because the slope is less steep there 3) Interval B is stopped because the slope is flat <tr><td> 5e) ☆☆☆ 1) What is volume? 2) How can you find the volume of ANY cylinder or prism? (like these)  </td><td> 5e) 1)<u>Volume</u> is the number of cubic units needed to fill a 3D shape 2) Find the area of the base and multiply it by the height. </td></tr>	5e) ☆☆☆ 1) What is volume? 2) How can you find the volume of ANY cylinder or prism? (like these) 	5e) 1)<u>Volume</u> is the number of cubic units needed to fill a 3D shape 2) Find the area of the base and multiply it by the height.
	Input = x	Output = y																											
+1 <	0	0	> +4																										
+1 <	1	4	> +4																										
+1 <	2	8	> +4																										
+1 <	3	12	> +4																										
+1 <	4	16	> +4																										
5d) ☆☆☆ 1. Where are they moving fastest? Explain? 2. Where are they moving, but going slow? Explain? 3. Where are they stopped? 	5d) 1) Interval A is the fastest because the slope is steepest there 2) Interval C is the slowest because the slope is less steep there 3) Interval B is stopped because the slope is flat <tr><td> 5e) ☆☆☆ 1) What is volume? 2) How can you find the volume of ANY cylinder or prism? (like these)  </td><td> 5e) 1)<u>Volume</u> is the number of cubic units needed to fill a 3D shape 2) Find the area of the base and multiply it by the height. </td></tr>	5e) ☆☆☆ 1) What is volume? 2) How can you find the volume of ANY cylinder or prism? (like these) 	5e) 1)<u>Volume</u> is the number of cubic units needed to fill a 3D shape 2) Find the area of the base and multiply it by the height.																										
5e) ☆☆☆ 1) What is volume? 2) How can you find the volume of ANY cylinder or prism? (like these) 	5e) 1)<u>Volume</u> is the number of cubic units needed to fill a 3D shape 2) Find the area of the base and multiply it by the height.
