

Name _____ HR _____

8th Grade Science Unit 5 Changing Life STAR Cards!

QUESTION	ANSWER
5a)  <u>Asexual reproduction</u> is reproduction without a mate.  1) What is the main advantage of <u>asexual reproduction</u>? 2) What is the main disadvantage of <u>asexual reproduction</u>?	5a) 1) The main advantage of <u>asexual reproduction</u> is that it creates more offspring quickly. 2) The main disadvantage of <u>asexual reproduction</u> is that there is no genetic variation.
5b)  <u>Sexual reproduction</u> is reproduction with a mate.  1) What is the main advantage of <u>sexual reproduction</u>? 2) What is the main disadvantage of <u>sexual reproduction</u>?	5b) 1) The main advantage of <u>sexual reproduction</u> is that it creates genetic variation. 2) The main disadvantage of <u>sexual reproduction</u> is it takes more time and energy.
5c)  1. What is an inherited trait? 2. Name an example of an inherited trait	5c) 1. An inherited trait is a characteristic that is passed on from parents to children through DNA 2. Examples ● Eye color, hair color, flower color ● Leaf Shape ● Height ● Freckles, dimples

QUESTION	ANSWER
5d)  1. What is a dominant trait? 2. What is a recessive trait?	5d) 1. A dominant trait only requires 1 copy of the gene to be expressed (shown) 2. A recessive trait requires 2 copies of the gene to be expressed (shown)
5e)  In humans, brown eyes are dominant and blue eyes are recessive. 1) Draw a Punnett Square that shows that two brown-eyed parents can have a blue-eyed baby 2) Determine the probability that the offspring in your Punnett Square will have blue eyes.	5e)  1)  2) There is a $\frac{1}{4}$ or 25% chance the offspring will have blue eyes if both of their parents have brown eyes (Bb).
5f)  1) What is the difference between a <u>genetic factor</u> and an <u>environmental factor</u>? 2) List at least 3 examples of environmental factors that can affect an organism's characteristics.	5f) 1) <u>Genetic factors</u> are passed through DNA. <u>Environmental factors</u> are from outside the organism's body. 2) Examples of environmental factors include: ○ Sunlight ○ Water ○ Nutrients ○ Air Quality
